

I. Choose a picture, of which one has the right way to remove the load from the vehicle.

II. If you are loading a vehicle by driving inside the cargo area, what should be taken into account? (mark all relevant answers)

- Make sure that the load or forklift does not hit the vehicle structures.
- You can only drive inside the cargo area with an electric forklift.
- You can drive into the cargo compartment at a brisk speed.

III. Which image has the correct loading method?

IV. Connect the right approaches.

When loading, you lift the load ...

... be careful not to collide with the vehicle.

When driving into the cargo area, you ensure ...

... you can push another pallet with a pallet.

When loading the vehicle from the side ...

... the vehicle remains stationary.

When loading goods into a vehicle ...

... only next to the vehicle.

- V. Is there a correct way to move the pallet to the middle of the cargo compartment in the picture?

YES / NO
